

WIE ENTSORGE ICH DIE GRÜNGUTABFÄLLE?

VERWENDUNG EINES KOMPOSTIERBAREN MÜLLBEUTEL!

Dadurch vermeiden Sie Wasser- und Stromverschwendungen, sowie die unnötige Nutzung von Rohstoffen.

Anhand dieser zwei Logos erkennen Sie die offiziellen kompostierbaren Müllbeutel:

- Grün kariertes Design
- Die kompostierbaren Beutel, welche im Grossdetailhandel erhältlich sind, werden ausschliesslich aus pflanzlichen Stoffen hergestellt.

ABFÄLLE KÖNNEN AUCH LOSE IN DIE TONNE

Gemäss der auf der Rückseite aufgeführten Liste, können Grünabfälle direkt in die vorgesehene Tonne entsorgt werden.

PLASTIKBEUTEL SIND NICHT ERLAUBT!

Die Verwendung von Plastikbeuteln zum Entsorgen von Grünabfällen ist verboten. Der Plastik wird aus Erdöl hergestellt und verschmutzt die erzeugte Komposterde.

WAS GEHÖRT IN DIE GRÜNGUTSAMMLUNG? ➔

WAS GEHÖRT IN DIE GRÜNGUTSAMMLUNG?

A collage of garden waste items. It includes several sprigs of rosemary with long, thin, needle-like leaves, a cluster of fallen autumn leaves in shades of orange, yellow, and brown, and a pile of freshly cut green grass clippings. The collage is set against a white background and is framed by a thick green border.

The image consists of three separate photographs arranged horizontally. On the left is a potted plant with vibrant pink, plumed flowers. In the center is a pile of dried, crumpled rose petals. On the right is a small, fully-grown Christmas tree. A large green checkmark is overlaid in the bottom right corner.

A collage of three types of food waste: a croissant, a cookie, and bread. The croissant is on the left, showing its flaky layers. The cookie is in the center, broken in half to reveal its chocolatey interior with nuts. The bread is at the bottom, cut into two halves. A large green checkmark is in the bottom right corner.

Asche und Glas

A collage of items that should not be recycled: a green plastic bag, a brown paper coffee cup, a crushed blue plastic bottle, and a crushed clear plastic bottle. Each item is crossed out with a large red 'X'.

EN To collect your organic waste, you can use compostable bags, but do not use plastic bags!

FR Pour récolter vos déchets de compost, vous pouvez utiliser des sacs compostables mais pas de sacs plastiques !

IT Per la raccolta dei vostri rifiuti organici potete utilizzare sacchetti compostabili, ma non in plastica.
